Congratulations to this weeks DUI Love Story

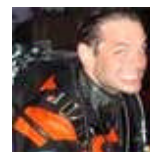

"I absolutely love diving my DUI drysuit for its warmth, comfort, and rock solid performance"

Here is the picture of the successful Search & Recovery effort of two expensive shot gun that were lost when the one of the two duck hunters swamped the canoe they were hunting from while duck hunting in West Virginia waters.

Thanks to my Fisher Underwater Metal Detector and the great exposure protection of my DUI CLX450, the cold and murky waters of West Virginia could not impede the successful recovery of these hunter's valuable weapons. The weapons were disassembled, cleaned, dried, and re-oiled before re-assembly. They were taken to the firing range to shoot perfectly, just as if they had never been in the water for 2-3 days in 6 inches of silt and mud.

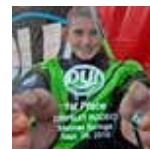

I absolutely love diving my DUI drysuit for its warmth, comfort, and rock solid performance that I can always count on it to deliver. I am proud to be a DUI dealer in
